## Subject Index

- Adiaspiromycosis—in AIDS, 91  
    seasonality of, in rodents, 395
- Adherence of *C. neoformans* to rat glial and lung cells, 55
- AIDS—adiaspiromycosis in, 91  
    *C. neoformans* var. *gattii* in, 395  
    morphotypes of *C. albicans* from patients with, 289  
    uncommon fungal pathogens in, 175
- Ajoene—effect of, on dimorphism of *P. brasiliensis*, 133
- Amino acid uptake by *erg* mutants of *C. albicans*, 377
- Amphotericin B—effect of, on galactomannan levels in invasive aspergillosis, 315
- Antifungal susceptibility of agents of black grain eumycetoma, 161
- Antigen gp43 in diagnosis of paracoccidioidomycosis, 155
- Antigenic relationships between isolates of *P. brasiliensis*, 347
- Aspergillosis—fluconazole in, 259
- Aspergillus*—expression of elastase in, 455
- Azoles—activity of, on *P. brasiliensis*, 169
- $\beta$ -glucan synthetase—localization of, in *P. brasiliensis*, 421
- Bifonazole in treatment of otomycosis, 435
- Black grain eumycetoma—antifungal susceptibility of agents of, 161
- Calcium—effect of, on yeast-to-mycelium transition in *S. schenckii*, 43
- Candida albicans*—amino acid uptake by *erg* mutants of, 377  
    antigens recognised by human sera, 219  
    cell wall antigens lost during subculture  
    detection of DNA of, in CSF, 353  
    effect of trifluoperazine on, 427  
    flow cytometric analysis of germ tube formation in, 367  
    morphotypes of, from patients with AIDS, 289  
    phospholipid extraction from, 405
- Candida tropicalis* proteinase—monoclonal antibodies against, 1
- Candidosis—in SCID mice, 143  
    submicron amphotericin B in, 207
- Cation exchange chromatography for isolation of histoplasmin M glycoprotein, 29
- Cell wall antigens lost during subculture of *C. albicans*, 227
- Cell wall fraction of *P. brasiliensis*—stimulation of neutrophil function by, 17
- Cerebrospinal fluid—detection of *C. albicans* DNA in, 353
- Cryptococcus neoformans*—adherence of, to rat glial and lung cells, 55  
    binding of, to human neutrophils 189  
    fingerprinting of, by PCR, 463  
    isolation of, from Rio de Janeiro city, 449  
    serotypes of environmental and clinical isolates of, 401  
    urease negative strain of, 87
- Cryptococcus neoformans* var. *gattii*—in AIDS, 395  
    in India, 165

- Deoxycholate amphotericin B—treatment of murine paracoccidioidomycosis with, 387  
Diagnosis of paracoccidioidomycosis using purified antigen gp43, 155  
Dimorphism of *P. brasiliensis*—effect of ajoene on, 133
- Earthworms—*E. jeanselmei* in, 343  
Elastase—expression of, by *Aspergillus*, 455  
*Exophiala jeanselmei* in earthworms, 343  
Experimental sporotrichosis—effect of depth of inoculation of *S. schenckii* conidia, 411
- Flow cytometric analysis of germ tube formation by *C. albicans*, 367  
Fluconazole—in invasive aspergillosis, 259
- Galactomannan levels—effects of itraconazole and amphotericin B on, in invasive aspergillosis, 315  
Germ tube formation in *C. albicans*—flow cytometric analysis of, 367
- Histoplasma capsulatum*—cellular immune responses and susceptibility of mice to, 181  
Histoplasmin—isolation of M glycoprotein from, 29  
Human sera—recognition of *C. albicans* antigens by, 219  
Humoral and cellular immune responses to *M. canis*, 121
- ICAM-1—lack of expression of, in chronic *T. rubrum* infection, 459  
Improved culture medium for *P. brasiliensis*, 201  
India—*C. neoformans* var. *gattii* in, 165  
    *T. yaoundei* in, 333  
Invasive aspergillosis—effect of itraconazole and amphotericin B on galactomannan levels in, 315  
Itraconazole—effect of, on galactomannan levels in invasive aspergillosis, 315  
    fluconazole in, 259
- Killer toxin—effect of tunicamycin on secretion of, by *P. anomala*, 337
- Lipase of *M. furfur*, 77  
Liposomal amphotericin B in treatment of murine paracoccidioidomycosis, 387
- M glycoprotein—isolation of, from histoplasmin, 29  
*Masassezia furfur*, 265  
    lipase of, 77  
Mice—cellular immune responses of, to *H. capsulatum*, 181  
    susceptibility of, to *H. capsulatum*, 181  
*Microsporium canis*—humoral and cellular immune responses to, 121  
Monoclonal antibodies against *C. tropicalis* proteinase, 1  
Morphotypes of *C. albicans* from patients with AIDS, 289  
Murine candidosis—submicron amphotericin B in, 207
- Neutrophil function—stimulation of, by cell wall fraction of *P. brasiliensis*, 17  
Neutrophils—binding of *C. neoformans* to, 189

Otomycosis—treatment for, with bifonazole, 435

*Paracoccidioides brasiliensis*—activity of saperconazole and azoles on, 169

and paracoccidioidomycosis, 99

antigenic relationships between isolates of, 347

detection of proteolytic enzymes from, 299

effect of ajoene on dimorphism of, 133

improved culture medium for, 201

localization of  $\beta$ -glucan synthetase in, 421

stimulation of neutrophil function by cell wall fraction of, 17

Paracoccidioidomycosis—and *P. brasiliensis*, 99

diagnosis of, using purified antigen-gp43, 155

placental involvement in, 249

treatment of, with liposomal amphotericin B and deoxycholate amphotericin B, 387

Phaeohyphomycosis—caused by *Ramichloridium mackenziei*, 325

Phagocytosis—defects of, in trichophytosis, 115

Phospholipid extraction from *C. albicans*, 405

*Pichia anomala*—secretion of killer toxin in presence of tunicamycin, 337

Placental involvement in paracoccidioidomycosis, 249

Polymerase chain reaction—fingerprinting of *C. neoformans* by, 463

for detection and differentiation of fungi, 65

Proteinase of *C. tropicalis*—monoclonal antibodies against, 1

Proteolytic enzymes—detection of, from *P. brasiliensis*, 299

*Ramichloridium mackenziei* in phaeohyphomycosis, 325

Restriction enzyme analysis for detection and differentiation of fungi, 65

Rio de Janeiro city—isolation of *C. neoformans* from, 499

Rodent adiasporomycosis—seasonality of, 359

Saperconazole—activity of, on *P. brasiliensis*, 169

SCH 39304—treatment of superficial and vaginal infections with, 239

SCID mice—candidosis in, 143

Serotypes of environmental and clinical isolates of *C. neoformans*, 401

*Sporothrix schenckii*—effect of calcium on yeast-to-mycelium transition, 43

effect of depth of inoculation on course of experimental infection with, 411

Subculture of *C. albicans*—loss of cell wall antigens during, 227

Submicron amphotericin B in murine candidosis, 207

Superficial infections—treatment of, with SCH 39304, 239

Terbinafine—effect of, on ultrastructure of *T. interdigitale*, 305

*Trichophyton interdigitale*—effect of terbinafine on ultrastructure of, 305

*Trichophyton rubrum*—lack of expression of ICAM-1, in chronic infection with, 459

*Trichophyton yaoundei* in India, 333

Trichophytosis—defective phagocytosis in, 115

Trifluoperazine—effect of, on *C. albicans*, 427

Tunicamycin—effect of, on *P. anomala* killer toxin secretion, 337

Uncommon fungal pathogens in AIDS, 175

Urease negative strains of *C. neoformans*, 87

Vaginal infections—treatment of, with SCH 39304, 239

Yeast-to-mycelium transition in *S. schenckii*—effect of calcium on, 43
